

OUR NEW MILLINER.

It may not be well to "swap horses in the middle of the stream," but it's not a bad idea to change trimmers in the middle of the season. After the opening---and half the season is gone---and a trimmer's "style stock" is about run out---and her nerves shattered by over-work and study, then to bring in a new trimmer---fresh from the city, full of energy and all the "just out" style ideas, is certainly a happy solution of a perplexing problem.

Called home by the death of her sister, and the illness of her mother, our head trimmer was forced to resign. In her place we have secured Mrs. Ida Martin, of Indianapolis, who has had wide experience in some of the most exclusive departments in the middle West. Mrs. Martin comes to us highly recommended and is fairly alive with new ideas, and best of all is enthusiastically in love with her business.

If you've gotten a hat for spring, then you'll want one for early summer and we promise the most efficient and prompt service we have ever given. All this week the department has been crowded, and every one is saying the new trimmer is "making good." With the trimmer, new goods are arriving daily and your hat is waiting for you.

TENNESSEANS

Awarded Prizes In The Big Contest.

The members of the Hopkinsville Fiddlers' Club, who attended the contest at the Nashville auditorium Tuesday night, returned home yesterday. There were eighteen contestants for prizes and all the prizes were given to Tennessee fiddlers. The judges had to recall eight of the contestants for a second trial, so close was the contest. Concerning the entertainment, the American says:

"One of the features of the contest was the presence of the 'Hopkinsville Old-Time Fiddlers' Band,' which rendered several selections while the judges were preparing their decisions, among them being 'Wagoner' and 'Muddy road to Nashville.'"

A quartet of the Hopkinsville band sang 'The Grave of Robert E. Lee' and 'Tenting on the Old Camp Ground,' which so pleased the large audience that it had to respond with an encore."

REELFOOT LAKE BILLS

Passed By House In Tennessee, and Go to Governor.

Nashville, April 28.—The hottest fights of the post-recess session occurred in the House of Representatives yesterday, one on the Reelfoot Lake bills, and the other on the fish and game law. By a vote of 73 to 8 the senate bill directing the Attorney General to clear up the State's title to Reelfoot Lake was passed, and the new fish and game law was passed by a vote of 66 to 7. The bill authorizing the condemnation of Reelfoot Lake was also passed by practically the same vote as its companion bill.

Speaker Taylor attacked the Reelfoot bill bitterly, declaring that to pass it would, in effect, condone the acts and substantiate the contentions of the contentions of the night riders; that it was confiscatory, and that the substance of the whole thing was to have the supreme court reverse itself. Mr. Puryear led the fight for the bill, and the arguments accompanying the consideration of the bill were very able, even though they were a little warm. There were only eight votes against it.

The bill authorizing the condemnation of the lake provoked little discussion.

FORTY PER CENT. UNDELIVERED.

Motion to Drop Recalcitrant Members Tabled--Clarksville Will Again Lead.

Clarksville, Tenn., Apr. 28.—The Dark Tobacco Growers' Association met Monday in regular session at the court house, with a small attendance. The district reports showed that about forty per cent. of the 1908 crop of tobacco is in the barns. This is said to be the largest amount of tobacco in the country at this time of year that has been known in years.

A motion was made to the effect that the Montgomery county Association drops from its membership roll all persons who have violated pledges by selling their tobacco independently. The motion brought forth considerable discussion and was tabled until next meeting.

This motion was brought to ratify action of the Executive Committee at a recent meeting.

Chairman Foust stated that the Association had stored 5,059 hogsheads of new tobacco in the local warehouses and had graded in all of the markets up to last Wednesday 17,500 hogsheads. He said the sales of Association tobacco loose and in light weight hogsheads this year amounted to 20,000 pounds. He thought Clarksville would handle between 10,000 and 15,000 hogsheads of Association tobacco and the Association between 35,000 and 40,000 of heavy weight hogsheads in all of the markets. He was of the opinion that the 1908 crop would show up between 20,000 and 30,000 hogsheads short of what was estimated before Christmas and believed all good tobacco would sell easy at good prices. He said there might be a slow sale on the lower grades but prospects for its ready sales were better than heretofore.
